An effective method for determining a worth is to send out a survey to your current customers. If these clients have already purchased an e-book from you, ask for his or her opinion when it comes to price. Do this by creating a gross sales web page for the new guide, but do not include a price on that page. As an alternative, add a number of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another strategy is to test out prices by making a number of duplicate gross sales pages with completely different prices on each page. Make certain your gross sales copy is precisely the same on every web page, and includes your promoting-deal with sentence. Then figure out for every web page the conversion ratio between visitors to your website and gross sales of your book. This can let you know what your optimum value is.

In the end, if you've written a guide that solves a problem or presents a brand new technique, your e-book will bring in both traffic and profits.
