An efficient approach for determining a value is to ship out a survey to your present customers. If these prospects have already purchased an ebook from you, ask for his or her opinion in terms of price. Do that by creating a gross sales page for the brand new ebook, but don't embody a value on

that page. Instead, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to check out prices by creating a number of duplicate gross sales pages with completely different costs on each page. Make certain your gross sales copy is exactly the same on every page, and contains your promoting-deal with sentence. Then determine for each web page the conversion ratio between guests to your site and gross sales of your book. This will tell you what your optimum price is.

In the end, if you happen to've written a e-book that solves a downside or presents a new approach, your book will herald each visitors and profits.
