In addition to promoting your books assiduously online, there are several different methods that may allow you to sell more books.

One is to offer something away for free together with your e-book, resembling a helpful bonus item. Or bundle a number of ebooks below one price, which lowers the price for each ebook in the event that they were sold separately.

An efficient approach for figuring out a value is to send out a survey to your current customers. If these clients have already bought an ebook from you, ask for their opinion in terms of price. Do

that by creating a sales page for the new e book, but do not include a worth on that page. As an alternative, add a number of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to test out prices by making a number of duplicate gross sales pages with totally different costs on every page. Ensure your sales copy is strictly the same on every page, and consists of your selling-handle sentence. Then figure out for each web page the conversion ratio between visitors to your web site and gross sales of your book. This may let you know what your optimum price is.

Ultimately, in the event you've written a e book that solves a drawback or presents a brand new method, your guide will bring in each traffic and profits.
